

Pranvi Dandriyal

SENIOR UX DESIGNER

+91-904-537-0234 | pranvidandriyal@gmail.com | [LinkedIn](#) | [Portfolio](#)

Summary

Senior UX Designer with 7+ years of experience designing B2B SaaS platforms and recruiter workflows. Specialized in design systems, AI-assisted tools, and outcome-driven product design that improves hiring efficiency. Proven track record of reducing operational friction through measurable UX improvements.

Experience

SHL India Pvt. Ltd. | Senior UX Designer

APR 2022 – PRESENT

- Led Talent Intelligence platform design across multiple workstreams, aligning designers, product, and engineering toward a cohesive product vision.
- Owned and evolved the TI design system, defining component standards, prioritizing roadmap items, and ensuring consistency and scalability across recruiter-facing products.
- Designed the Talent Profile experience to present complex talent data in a structured, scannable, and extensible format.
- Built a flexible data configuration workflow enabling clients to structure their data through guided automation and manual setup options.
- Redesigned the Interviewing platform to support structured evaluations and more consistent, data-informed hiring decisions.
- Created a segmentation framework to help users group and act on talent data more effectively.
- Recognised company-wide for contributions to the recruiter experience and platform usability.

Girl Power Talk Pvt. Ltd. | Senior UX Designer

DEC 2020 – MAR 2022

- Built and mentored a team of 5 designers, establishing design standards, feedback culture, and scalable workflows that improved team productivity and client satisfaction.
- Partnered directly with clients and stakeholders to translate business requirements into scalable UX solutions.
- Conducted and led a global UI/UX design workshop.

Businace | UX Designer

JUL 2020 – DEC 2020

- Designed payroll management software.
- Created a design system for a unified look and feel.

Androidmate | UX Designer

MAR 2019 – JUN 2020

- Designed gaming applications for Android OS.
- Created marketing resources for social media platforms.
- Designed logos and created brand guidelines.
